

Liberty Hall Capital Partners Appoints Jack Nadal as Principal

NEW YORK, June 29, 2016 - Liberty Hall Capital Partners ("Liberty Hall"), a private equity firm focused exclusively on investments in businesses serving the global aerospace and defense industry, today announced that Jack F. Nadal has joined the firm as a Principal.

"Since we formed Liberty Hall almost five years ago, we have continuously invested in growing our team," said Rowan Taylor, Liberty Hall's founding Partner. "To continue to execute on our investment strategy focused on the aerospace industry, we must have the right talent at our firm. Jack is an ideal addition to Liberty Hall, and we are excited to be working with him again."

Prior to joining Liberty Hall, Mr. Nadal was a Senior Vice President at Insight Equity, a middle market private equity firm, which he joined in 2013, and where he was involved in all of Insight's investments in the aerospace industry during his tenure, including Norsk Titanium and Precision Holdings and its related add-on acquisitions. Prior to Insight Equity, he was an Associate at Oak Hill Capital Partners, where he worked with Mr. Taylor and Liberty Hall Principal Taylor Catarozoli as members of Oak Hill's Basic Industries group. Mr. Nadal began his career at Lazard Ltd. as an Analyst in its Technology, Media and Telecom group. Mr. Nadal earned his B.B.A. and a B.A. in Economics with Distinction from the McIntire School of Commerce at the University of Virginia and M.B.A. from Columbia Business School.

Liberty Hall announced earlier this month the acquisition of J&M Machine, LLC, an add-on acquisition for Accurus Aerospace Corporation, a fully-integrated, highly diversified Tier II aerostructures supplier. Since its formation by Liberty Hall in 2013, Accurus has completed four strategic acquisitions: Precise Machining & Manufacturing (2013), McCann Aerospace Machining (2014), LaCroix Industries (2015) and J&M Machine. In February 2016, Liberty Hall acquired AIM Aerospace, a leading, independent supplier of composite ducting, substructural and interiors parts for the commercial aerospace industry.
